"Prior to starting with Change Please, I was going through a period a of homelessness. I had been homeless for 6 years. Things were looking very bleak. When I first started the Change Please Barista training I didn't know anything about making coffee, It was a fresh start for me. I didn't realise how fulfilling a job being a barista is. Having a conversation in the morning with a coffee, putting smiles on people's faces, is exactly the change I needed. The support that has been given by Change Please alongside the training has been wonderful. I'm more optimistic about the future now." - **Change Please Graduate**
